Thigh supports

SUREHANDS®

The key to making the body support self-adjust for you

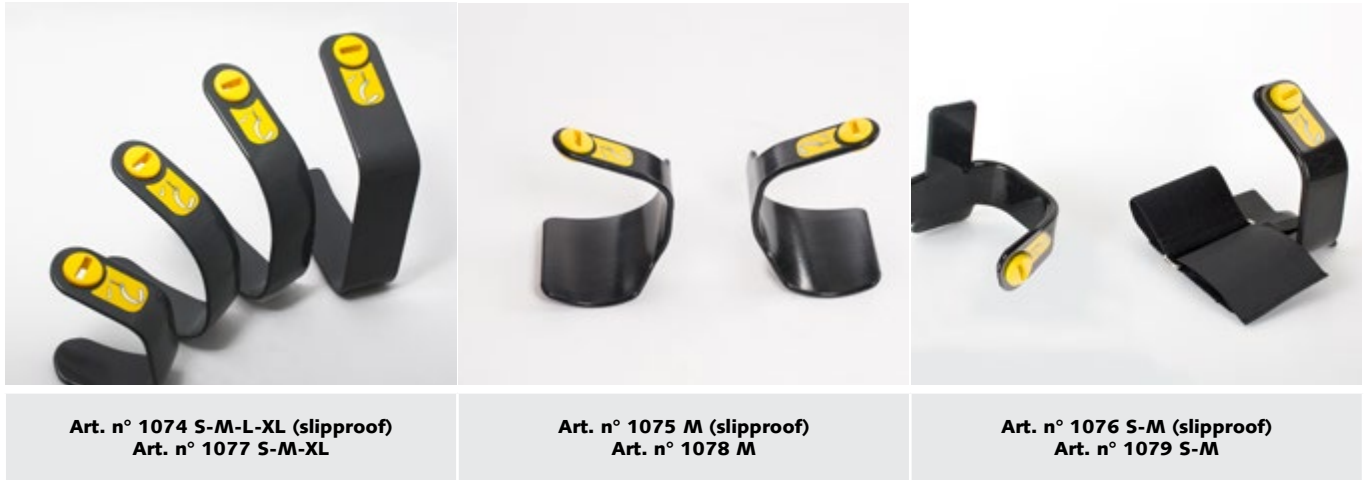

- SureHands® offers a variety of thigh supports making it possible for many people to be able to use the SureHands® body support.
- Thigh supports fit securely under the thigh and distribute a person's body weight and pressure uniformly. They also ensure that the body maintains posture and is in balance during lifting.
- Thigh supports are made of a maintenance friendly rust-resistant material.
- The patented thigh support fix™ designed for extra comfort.
